LOCAL NEWS.

Secretary Moyer of the Hockey club has the season tickets now on sale. These are in four classes: Members \$1, gents' skating \$4, ladies' \$3, minors \$2. Eric Heichen has been active in getting the rink in shape for the skaters.

Wm Roddy appeared in an Edmonton court on Tuesday, charged with operating a motor vehicle with number plates attached which had been issued for a vehicle other than the one he was driving.

The local curling club opened its regular season Monday. Taking a lesson from last year, the ice committee went to considerable expense to put a good bottom on each of the rinks for this season, and it is expected curling can be continued thru the thaws which occasionally happen. The club is off to a good start, with a list of active members well up to that of the 1925 season. A meeting of curlers and supporters was held at the Curling Club house, at which the schedule for the season was drafted.

The Walther League concert given in Stony on Friday evening drew a large audience, each item on the program being well received, particularly the several selections given by "Snoosers" Band. The troupe got such a hearty reception here, it is the intention to take them to several other towns, including Wetaskiwin, Bruderheim and Edmonton. The trip to Bruderheim will be undertaken tomorrow, where the show will be given. Promoter Gols deserves great credit for the able manner in which the several members performed.

What promises to be an interesting case will be given a hearing in Stony Plain on Tuesday next Dec. 7th. The two principals summoned are charged that they "by riotous or disorderly conduct did want only disturb the peace and quiet of the inmates of a dwelling house." Of the two charged, one comes from the Grove and the other from North Blueberry. Some half dozen witnesses have been subpoenaed, and no doubt the town hall will be filled when the Court opens. A representative of the Attorney-General's department will be present, accompanied by a court stenographer.

The local branch of the Canadian Bank of Commerce now have arrangements for making remittances to every country in Europe. These money transfers can be effected in any country in the local currency, Canadian exchange, Sterling exchange, U. S. exchange or in actual U. S. dollars. This method of transferring money has a high safety factor; the rates of exchange are favorable and the cost is nominal. Call and interview the local Manager, who will be pleased to be of service to you.

CHILDREN CRY FOR

Fletcher's CASTORIA

MOTHER— Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

The Income Tax

In the discussions now proceeding throughout Canada regarding Federal taxation, and in particular the campaign being waged by the Retail Trade Bureau and the Canadian Board of Trade in favor of the abolition of the Income Tax, there is recognition of one outstanding fact. That is, that the Dominion Government must raise a large revenue in order to meet national obligations. Past Budget statements at Ottawa further indicate that the present volume of revenue is required to meet our war indebtedness and obligations and the current expenditures of the Dominion, except, of course, insofar as current expenditures can be reduced through greater economy and efficiency. Such reductions, cannot, however, be effected immediately, while the public demand for decreased taxation is rather insistent.

It would appear axiomatic, therefore, that if the Income Tax is to be repealed, some other source of revenue to make good the fifty odd million dollars obtained annually through this tax must be tapped. Where that money is to come from, and whether it would not simply mean the introduction of new or additional taxes in some other form, advocates of the repeal of the Income Tax do not explain. They do say that great savings can be effected in Government administration, in Government purchases, in a smaller Civil Service, and in Government expenditures generally, but, as already stated, these cannot be brought about immediately to offset the complete stoppage of Income Tax Revenues.

Advocates of the repeal of the Income Tax do, however, present a strong and logical case as to the ultimate national effect of the abolition of Income Taxes, and their views are worthy of the most careful and serious consideration.

It is argued that the Income Tax is not only unsound but unjust in that it practically amounts to the imposition of a penalty on the most enterprising, energetic, and productive citizens, who, by their labor and thrift earn larger incomes than do the less energetic and progressive citizen. Such a tax, they argue, discourages men in their best years and impels them to emigrate to the United States where their experience and ability is recognized and rewarded and where only a fraction of their earnings are taken in taxation as compared with Canada.

It is further argued that, while an Income Tax may be a sound and wise policy in European countries, whose development has reached a mature stage, and where there are vast accumulations of wealth, it is a fatal policy for a young and undeveloped country like Canada, inasmuch as it operates to discourage investment in development and productive enterprises; that instead of encouraging development and production, Canada's future demands that every encouragement should be given, and that through such development only can a larger and permanent population be secured, and ultimately necessary revenues to discharge our heavy war indebtedness and provide required funds for our railways and industrial establishments.

Again, say the advocates of repeal, the Income Tax acts as a barrier to the investment in Canada by men of wealth in the United States, Great Britain, Holland, Switzerland, and other countries who have money to invest, and who would thus assist in developing the resources of Canada, but who hesitate to do so in view of the fact that their incomes from such investment are so heavily taxed.

It must be admitted that these are weighty arguments, and they must be given consideration if Canada is to deal with this taxation problem from the viewpoint of the future as well as of the present. And it is to the future we must look to relieve our heavy war debt and relieve the Dominion of this burden which now hampers our best efforts.

On the other hand, it is urged by those who favor retention of the Income Tax that it is essentially the fairest tax that can be imposed, inasmuch as it calls upon people to pay in proportion to their ability to do so as represented by their annual income. Further, that it is the only way whereby men and women who are not now engaged in any work of production but who are living on invested capital can be made to contribute their proper share to the cost of Government. It was contended during the closing years of the war, and the argument still holds good in numerous instances, that whereas thousands of men gave their lives, others amassed fortunes, now safely invested, and that they should be required to pay through a tax on the income derived from those investments profits.

Then, coming back to the opening paragraphs of this article, if the Income Tax is repealed, how and where is the necessary revenue thus lost to be obtained? The Canadian Council of Agriculture oppose repeal, not only because they regard an Income Tax as a very fair method, but because they see in its abrogation the passing of any possibility of further tariff reductions, and even fear increases in order to make good the loss of revenue.

Possibly the only course that will commend itself generally to the country, and possibly the only feasible one, will be found in further pursuing the policy of last session of Parliament and gradually reducing the Income Tax, step by step, until it reaches the vanishing point. If the Government deliberately announced a graduated scale of reductions covering a period of years it would provide the necessary incentive to capital, both at home and abroad, to invest in productive and development enterprises, and encourage the enterprising youth of Canada to remain at home to enjoy the rewards before them, while at the same time it would enable the Government to inaugurate those necessary economies to offset losses in revenue without having recourse to other forms of taxation.

Stops Coughing

The very first dose helps. Effective for both children and grown people. Does not disturb the stomach.

Chamberlain's Cough Remedy

Standard for over 50 years

Nowhere for Airmen
Aviators on the Pasco-Biko airfield line on the west coast are provided with snowshoes in case of a forced landing in the Rocky Mountains where the snow is deep and walking is out of the question.

Plunkett's Next Hit

Revue Comes West After Striking Success in the East

Capt. M. W. Plunkett, producer of the famous Dumbells has scored one of the most outstanding successes of his career with a new song-and-dance hit, "Capt. Plunkett's Revue of 1926."

It marks a revolution in revue entertainment—a high-class, elaborately-staged, clean-cut English-type attraction with more pretty girls than a beauty contest and a superb singing and comedy cast.

The usual chorus has been replaced by a Leonidoff dance-ballet entirely made up of specialty girls. The comedy, imported direct from London music halls is in charge of a battery of comedians headed by Fred Karno, Jr., the English star. In the east, too, are the two Canadian winners of international beauty awards—Miss Toronto and Miss Winnipeg.

The company plays the following engagements in the west:

Week of Nov. 29th, Walker Theatre, Winnipeg; Dec. 1, 7, 8, Regina Theatre, Regina; Dec. 10, 11, Empiro Theatre, Saskatoon; Week of Dec. 13th, Empire Theatre, Edmonton; Week of Dec. 20th, Grand Theatre, Calgary; Dec. 27, 28, Majestic Theatre, Lethbridge.

SCIATIC SUFFERING

Comes Because the Nerves Are Starved for Better Blood

There are excellent reasons why Dr. Williams' Pink Pills have proved beneficial in the treatment of sciatic, neuritis and other complaints exist because the blood in this and watery, and the nerves are thus literally starved for better nourishment rich red blood supplies them. Any increase, therefore, in the richness of the blood speeds and benefits their specific action on the blood, thus feeding the starved nerves that Dr. Williams' Pink Pills have been so successful in the treatment of these troubles. As proof of this we give the case of Mrs. P. N. Benanson, South Alton, N.S., who writes: "Two years ago I was attacked with sciatic and neuritis in my back and leg. The pain was so severe that I could not walk. Even to move caused me agony, and I had to go to bed. The doctor called in but was unable to do more than deaden the pain, and I had been in bed for six weeks when my groundsman came to see me and strongly urged me to give Dr. Williams' Pink Pills a trial. She said she had had a similar attack and it was these pills that had restored her to health. I at once got a supply and had only used one when I found great relief. Gladly I kept on taking the pills, and soon after found that I was as well as ever. I am grateful to what Dr. Williams' Pink Pills did for me makes me urge others similarly afflicted to try them."

You can get these pills from your druggist, or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

It will Relieve a Cold—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will usually stop the cough because it allays the irritations in the throat. Try it and prove it.

Watched Workman

Cast Carillon Bells

Premier King Cast Canadian and English Coin Into Molten Metal While molten metal poured at Cryodon for one of the great bells of the carillon to be erected in the tower of the House of Commons at Ottawa, Premier Mackenzie King—cast in a Canadian cast bearing a date of the Laurier regime. The Canadian Prime Minister stood watching the running metal for a moment and, as if an afterthought, took an English half-penny from his pocket. "Equal status," he said, throwing the English coin in too.

Addressing the workmen engaged in casting the bells later, Mr. King said one idea of Ottawa's carillon was that it might recall the chimes of Westminster and symbolize the harmony between the two parliaments.

The carillon will consist of 53 bells ranging in weight from 14 pounds to 10 tons.

Genuine Aspirin

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Always "Bayer" boxes of 19 tablets. Also bottles of 54 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monrovia, California or Baltimore (Aspirin Salicylate Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacturing, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

May Meet Here

Empire Air Conference May Meet in Dominion in 1928

The Canadian Government has invited the Imperial air conference to meet in Canada. The date of the conference has not been determined yet but it is not probable that it will be before the year 1928. The report of the Imperial Conference committee on air communications, which has been adopted by the conference, approves the proposed new air routes to the Far East and recommends the development of other air services should receive the attention of the Governments concerned, and that the Dominions and India should examine the possibility of erecting nucleus mooring bases to airships.

Earlier in the conference Premier Mackenzie King announced the intention of the Canadian Government to erect a mooring mast in Canada.

Proficiency in Radio

Several Westerners Successfully Pass Government Examinations

The radio branch of the Department of Marine and Fisheries has announced that 18 candidates were examined during October, of which the following were among the successful and obtained certificates of proficiency in radio telegraphy: First-class commercial, C. B. McLeod, Vancouver; second-class commercial, E. D. Jones, Vancouver. The following have been further examined and have had their existing certificates endorsed for additional equipment: S. J. Melhoff, Swift Current, Sask.; A. Townsend, Milestone, Sask.

Rhodes Scholarships

New Rhodes House at Oxford to be Completed in 1928

The Rhodes Trust, the statement for the academic year 1925-26 just issued says 63 scholars took up scholarships for the first time during the year. The number actually in residence for part or all of the period was 188 of which 97 were from the British Empire and 91 from the United States. Of these 42 were engaged in natural science and medicine and 54 in law. The new year starts with 183 men in residence. Five old scholars died during the year. The first awards, connected with the foundation of the Rhodes Travelling Fellowship will be made early in 1927. It is expected Rhodes House, Oxford, will be completed in 1928.

Labor-Saving Device

According to the New-West Farmer a feature of the present year's harvest was the use of "combinds"—the combine reaper and threshing now being made by several implement manufacturers in this country. Costing about \$3,000 each they can be operated by two men. One farmer using this apparatus claims to have covered from 35 to 50 acres per day at a cost of 45 cents per acre. He says they save the cost of twine and nine-tenths of the labor of harvesting.

Certain morbid conditions must exist in the stomach and intestines to encourage worms, and they will exist as long as these morbid conditions permit them to. To be rid of them and spare the child suffering, use Miller's Worm Powders. They will correct the digestive irregularities by destroying the worms, conditions favorable to worms will disappear, and the child will have no more suffering from that cause.

Russian Criminals Are Exiled
Riflemen, a name applied by Russians to all persons guilty of assault, theft and minor crimes, have become so numerous throughout Russia that the Government has resorted to a system of exile to get rid of them. One hundred and seventy have been exiled.

Cuts and Bruises Disappear—When suffering from cuts, scratches, bruises, sprains, sore throat or chest and any similar ailment, use Dr. Thomas' Electric Oil. Its healing power is well-known in every section of the community. A bottle of Dr. Thomas' Electric Oil should be in every medicine chest ready for the emergencies that may always be anticipated.

Largest Human Skull
What is believed to be the largest human skull in the world was recently discovered in South Africa. It measured eight and one-half inches in length and had a capacity of 122 cubic inches.

Coughing.

Take half a teaspoonful of Minard's Internally in molasses. Eases the throat, stops the cough.

Royal Canadian Air Force Doing Good Work Checking Smuggling And Locating Many Forest Fires

Adding the fish patrol and helping the customs department to check smuggling at Vancouver, spotting fires in the valuable forests on the eastern slopes of the Rockies and in Northern Manitoba, where 210 out of 215 fires were stopped at their source last year, perfecting a Canadian military air force reserve in the huge training place at Camp Borden, and embodying the Royal Canadian Air Force and its equipment by experiment and research at Ottawa and mapping the famous Maritime Canadian tourist country at the Dartmouth, N.S., station—these are the main phases of the work of the Royal Canadian Air Force, as sketched by Group-Captain J. Stanley Scott in an address to the Canadian Club at Winnipeg.

Captain Scott also indicated that the force was developing its own aircraft, having in 1925 developed a two-passenger and a six-passenger plane, and a small 60-horsepower motor machine; and that standardization was being effected on a 200-h.p. engine such as was now being used in British training camps. The question of air mail in Canada was being considered. In conclusion Capt. Scott recommended that Western cities in their planning provide for a central aerodrome. He stated United States fliers would visit Canada in great and increasing numbers if assured of satisfactory landing and housing for their craft.

Food Value Of Fish

Is the Ideal Food For Manhood, Says Japanese Scientist

Fish is the ideal food for mankind, in the opinion of Chiyomatsu Ishikawa, famous Japanese scientist, who has brought with him to New York 45,000,000 eggs of the "Amur fish," the second-best tasting fish in the world. "The first best-tasting fish in the world," he said, was the "Eulachon," another form of Japanese salmon.

"In return I hope to take back to Japan some of the eggs of the American cod," said the scientist.

With two other Japanese scientists, Ishikawa is the guest in this country of the Rockefeller Foundation. They will remain until early in January, visiting the big universities and identifying research centers of this country, studying American methods of teaching and advancing medical and zoological science.

Exchange Wheat For Coal

Idea for Developing Trade Between Canada and Wales

A scheme for the development of trade between South Wales and Canada, by the exchange of wheat for anthracite coal, is reported by the Westminster Gazette, that Sir Alfred Mond's visit to Canada was for the purpose of securing guarantees for this trade and adds that a combination of the amalgamated Anthracite Company and the United Anthracite Company, was contingent on the scheme going through. The aim is to export anthracite from Swansea to Canada, and import Canadian wheat direct on return voyage, with the idea of cutting into American trade.

Oats For Seed

Saskatchewan Pool to Make Survey of Province in View of Scarcity

Elevator operators of the Saskatchewan pool are to make a survey throughout the province to ascertain the quantity of oats available for seed and feed purposes in view of the reported scarcity of feed oats. It was decided at a session of the pool board of directors.

The general attitude with respect to the handling and sale of coarse grains through the central selling agency in Winnipeg was reported to be quite satisfactory by Chas. Pollitt, assistant salesman, who handles all coarse grain pool output.

Somebody is always getting in the way of the man who is in the pursuit of happiness.

It sometimes happens that the man who dubs his house his castle has the moat in his eye.

W. N. U. 1657

Saskatchewan Corn Show

Grades of Entries Proved To Be Of An Excellent Standard

George "Worthy" Medicine Hat farmer, is "Corn King" of the fourth annual Saskatchewan corn show held at Estevan. His entry of ten fine ears of Minnesota No. 12 variety won for him the Ollivier Flour Mills Grand Challenge trophy for the best ten ears of show, and title of Corn King.

The corn show was voted remarkable by the various authorities in attendance. All admit that the very unfavorable weather conditions for corn growing led them to believe that the corn show would be more or less of a failure, but the entry list turned out to be nearly as large as that of last year, and the grade of entries was of an excellent standard.

Other valuable trophies were won as follows: Prairie Nurseries' trophy, best ten ears of white flint, H. H. Panquier, Maple Creek; Regina Board of Trade shield, yellow flint varieties, R. P. Bobbins, Shamaw; Canadian Bank of Commerce, best ten ears any variety dent, A. S. Unsworth, Flaxton; Occidental Fire Insurance Company cup, best ten ears exhibited in Junior section, Curtis Hoffman, Maple Creek; B. F. Grunden, best ten ears of corn exhibited by girl, four Peterson, Weyburn.

Prize essay—1. Eunice Ford, Maple Creek; 2. Hilda Howe, Estevan; 3. J. H. Thackeray, Coaldale; 4. Wilfred Holmes, Benson.

Only three entries were received from the special zone north of the Saskatchewan river, F. P. Trowell, Saltcoats, won five first prizes; J. O. Lalonde, near Battleford, two second; and Lawrence Lalonde, one first.

Officers elected at the annual meeting of the Saskatchewan Corn Growers' association are as follows: President, A. J. Colquhoun, Maple Creek; vice-president, A. S. Unsworth, Flaxton; second vice-president, G. D. Mathews, Indian Head; executive directors, G. S. Herrington, F. C. Colquhoun, G. H. Hoffman, Dr. W. F. Dawson, and P. L. Hyde, M.L.A., all of Maple Creek.

The fifth annual corn show will be held at Maple Creek, where the first show was held four years ago. This was decided by an unanimous vote.

Curb Liquor Smuggling

Approximately 50 persons are under arrest in Los Angeles on secret warrants obtained by the government in its concerted drive against an alleged United States-Canadian liquor smuggling combine. It was announced here by special agents of the government.

Few women are interested in the study of prehistoric man. Their specialty is for the man of today.

Better Methods of Handling Imports

Southampton's most important imports for the British Isles include flour and fruit from Canadian farms. This port has made a strong bid for these commodities, which have been arriving in steadily increasing volume during the past few years. To ensure prompt and regular delivery the shipments are usually carried in large passenger vessels. The rapid development of liner traffic at Southampton has naturally been reflected in a corresponding growth in the imports of North American fruit and flour. Goods put on trains in western Canada and shipped across the Atlantic to Southampton, can now be ready for sale in

Cheese Production Is Rapidly Increasing to Meet Strong Demand In Britain and Other Markets

Clover Seed Will Be Sown

Making It Possible to Distinguish Between Hardy and Tender Grasses

It was a bright idea on the part of the United States Department of Agriculture to demand that clover and alfalfa seed be stained to indicate the country of origin. There has been a considerable international trade in these seeds, supplies coming from European countries and from South America to Canada and the United States. Most of them were too tender to withstand a northern climate and heavy losses were frequently the result. Under the new rule Canada is likely to benefit as our northern grown seed will have the preference over that from the south. Particularly in alfalfa will this advantage be secured and a premium of ten or twenty per cent may be realized. To further strengthen Canada's position the Dominion Department of Agriculture announces that red clover and alfalfa seed entering this country must be stained in a manner similar to that required by the United States. Seed from the United States will be stained in the sack to show one per cent colored orange. Seed from England, France, northern Europe and Chile will be stained green, as not fully winter hardy in Canada except possibly on the Pacific Coast. The re-stained seed from Italy, Africa and Asia is considered least desirable for Canadian conditions. The seed producing industry already well established on Canadian farms, will be given encouragement through this method of distinguishing between hardy and tender strains and should in the course of a few years build up an export trade instead of depending as heretofore on foreign supplies.

Find Old Cannon

Two ancient cannon, said to have been thrown overboard from a Russian man-of-war when she went aground in the year 1908, have been discovered in Hailuwa Bay near Honolulu. The guns which were discovered lying in 15 feet of water are deeply encrusted with barnacles and other sea growth. The discovery was made by an army officer from Fort Kaneohe.

Eels have been shipped by parcel post, in a jar of water charged with oxygen, from Florida to Copenhagen, Denmark. The postage was twenty-five cents.

There is indication of a growing cheese production in Canada and an increasing demand for this product in many countries. This industry, which became thrivingly established with the earliest settlement in the country and continued for long as one of the main supports of Eastern Canadian agriculture, tended to suffer as milk became diverted to build up the condensed milk industry as well as from the increasing demands for cream and ice cream in cities, but would seem to be once more in the process of being built up along sound lines. This is due in some measure to the remarkable progress which is being made in the dairy industry in Western Canada as well as to stimulation effected in various manners in the Eastern provinces.

The total production of factory cheese in Canada in 1925 was 178,366, 246 pounds with a value of \$66,781, 342, an average of 20.82 cents per pound. This was an increase of nearly thirty million pounds over the previous year and of over twelve million dollars in value. The volume of the product was the largest for any year back to 1917 and only a little below the record established in 1904, while it exceeded its value by \$10,000,000. The output of Ontario factories constituted 67 per cent and of Quebec factories 30 per cent of the total production of factory cheese in Canada.

Without much doubt the Canadian cheese industry could be made productive of yet greater revenue. The Dominion factories, with better organization, established its superiority at international shows and is in high favor. There is every evidence of steadily increasing demand from the United Kingdom and the purchases of Quebec factories 30 per cent of the total very small shipments to the many other countries where it is similarly established. Effective work is being done in stimulating sales in England. A much larger export trade could be developed with a score of other countries.

Game Birds Increasing

Hungarian Partridges Are Thriving in Western Provinces

Hungarian partridges imported and released in the western provinces of Saskatchewan and Manitoba two years ago, are reported to have taken well to Western conditions.

Unlike native grouse and chickens, the new birds are not subject to the evil of scarcity, according to Dr. H. J. Muckle, secretary of the Manitoba Game Protective League. He states that there were at first many who believed that the Hungarian birds would drive out the native fowl, but such was not the case.

In Alberta the birds have multiplied until they have a three-month open season with a bag limit of 75 birds. This game is from an importation made in 1909.

The new birds are very prolific, laying from 20 to 25 eggs and often rearing a brood of 20. In March of this year, under supervision of the Manitoba Game Protective League, five pairs were released upon an isolated farm three miles from the nearest neighbor. On October 1, the League had reports of five coveys totalling around 100 birds. No others had been released within 100 miles of this farm—Moose Jaw Times.

Find More Roman Relics

Roman tombs containing almost pulverized bones and artistic relics dating back three centuries before Christ have been discovered near Caserta. Among the articles found were terra cotta vases, wine jars, artistically decorated dishes and brass vessels. The discoveries were made by workmen excavating for the construction of the direct Rome to Naples Railway.

WORLD HAPPENINGS BRIEFLY TOLD

Directors of the Alberta Wheat Pool decided to accept the offer of the Vancouver Harbor Board to lease the No. 1 elevator at Vancouver.

Germany unequivocally demands withdrawal of the inter-allied military control commission, Foreign Minister Stresemann declared in the Reichstag.

The Rhodes Scholarship commission of Ontario has announced that Scott M. Reid, Trinity College, University of Toronto, and A. Swanton of Queens University, are the winners of the year's scholarships for Ontario.

Walter F. Inge, 45, for the past five years secretary of the British Columbia branch of the Retail Merchants' Association of Canada, died in hospital at Vancouver after an illness of several weeks.

Cattle exports from Canada to Great Britain continue to decrease. For the week ending Nov. 11, 1,272 head were exported, bringing this year's total to 70,717. A year ago 92,260 head were shipped and in 1924, 70,753.

Langin Fedorovich Guorin, new official Soviet agent and trade representative in Canada for Russia, will succeed A. Yarkoff as permanent trade commissioner. Yarkoff left Canada six months ago.

Saskatchewan Government 50-year 4½ per cent debentures to the amount of \$2,500,000 have been sold at 92 per cent making the cost to the province \$4,950, Hon. J. G. Gardiner, premier and provincial treasurer, has announced.

Plans of a new Polar expedition by strictly scientific aims were set forth by Dr. Fridtjof Nansen, president of the International Society for the Exploration of Arctic Regions, at the opening of the International Congress of that body at Berlin.

Herr Dufron-Ference, who is slated for the post of under-secretary general of the League of Nations in place of Dr. Nitobe, retiring, and whose appointment is subject to approval of the Council, is assured of unanimous election at Geneva.

Long Standing Asthma. Many have suffered so long from asthma and have tried so many so-called remedies they think that there is no real help for them. They should read the letters received by the manufacturer of Dr. J. D. Kellogg's Asthma Remedy from hundreds of cases even as desperate as their own. Even in long-neglected cases this famous preparation brings prompt help.

Worked 75 Years For One Firm

And During That Time He Took no Vacations

An unusual record for length of service with one company was possessed by William Middleton, father of Mr. Justice W. E. Middleton, of the Supreme Court of Ontario, who died in Toronto recently in his 95th year. Mr. Middleton had worked for a local music firm from the time he was 19 years old up until his retirement six months ago, 75 years, and during all this time he took no vacations, and was kept away from his office only six days during illness—Canadian Associated Press.

Precious, pale, restless, and sickly children owe their condition to worms. Mother Graves' Worm Expeller will relieve them and restore health.

Will Be Healthy Year

According to the astronomers who keep tab on such things, the ultra-violet rays of the sun will be more plentiful in 1927 than they have been since the corresponding period in the sun spot circle eleven years ago. Since these are the curative rays of which we hear so much nowadays, next year may get a new record in health, if we will only find our place, literally in the sun.

A Talking Letter

Noted German Physicist Invents Method for Reproducing Human Voice on Note Paper

A talking letter has been invented by the noted German physicist, Carl Ramsberg, who announces he has discovered a method of photographing the human voice. The principal is similar to that of the dictaphone, except that the voice is reproduced upon "cellul" leaves—a cellulose by-product.

A page of "cellul" similar in size to ordinary note paper will hold 15 minutes dictation and the "talking letters" can be placed in envelopes and mailed. The recipient inserts the letter in an apparatus somewhat like a photograph, which reproduces the original voice.

Prof. Ramsberg also is working upon "talking books."

Agony Of Lumbago Quickly Soothed Away By "Nervine"

For the sharp, piercing pain of Lumbago, and the tormenting aches of rheumatism, no salve is so efficient, so quick to bring comfort and relief as good old "Nervine." This wonderful liniment penetrates through the tissues very quickly, sinks at once to the core of the pain, draws the blood from the congested area, and thereby relieves the pain in a short time. Those who suffer from stiff joints, rheumatism and Rheumatic conditions should use Nervine, the King of Pain destroyers. Get Nervine today, 50c, at all dealers.

"IDEAL" fashions
by *Jane Phillips Hamilton*

Stripes in Frocks Are a Favorite Feature of the Season

Box-plais are cleverly placed to vary familiar lines, this modish coat dress of striped flannel. The skirt is joined to the bodice, while the back is plain. The collar, long rolling revers, and vest, are of contrasting material, as are also the trim cuffs on the long flared sleeves. The crush belt is joined at the side seams and fastens in front with buckle. No. 1446 is for ladies and is in sizes 24, 26, 28, 30, 32 and 34 inches bust. Size 36 bust requires 3½ yards 39-inch striped material; ½ yard 54-inch contrasting. 20 cents.

A single slip proves it

Propose Change In King George's Title

Deletion of Term "United Kingdom" Endorsed by Conference

A change in the title of His Majesty the King is recommended in the report of the inter-imperial relations committee adopted by the Imperial Conference. In this important alteration the term "United Kingdom" disappears. The change, it is explained, is necessitated by the Irish Free State becoming an autonomous, self-governing Dominion.

Here is the present title of His Majesty:

"His Most Excellent Majesty, George the Fifth, by the Grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions Beyond the Seas, King, Defender of the Faith, Emperor of India."

Here is the Royal title under the proposed change:

"His Most Excellent Majesty, George the Fifth, by the Grace of God, of Great Britain, Ireland and the British Dominions Beyond the Seas, King, Defender of the Faith, Emperor of India."

The proposal was endorsed at the plenary session of the conference.

Favorable Business Outlook

Purchasing Power of Crop Only Slightly Less Than Last Year

The monthly business summary of the Bank of Montreal says: "During the month uncertainty as to the crop situation in the prairie provinces, caused by adverse weather, has been dispelled, for although much damage was done, the crops which have been garnered are satisfactory on the whole and represent a purchasing power only slightly less than that of the crops of last year. Thus, this major element of doubt in regard to business has been removed and the outlook is one of reasonable assurance."

"The improvement in industry and commerce, which has been a feature of the current year, continues, and is perhaps most strikingly manifested in railway traffic, while wholesale trade is appreciably better than last year, and retail trade has improved despite the difficulties of transportation in rural districts through a prolonged period of wet weather. Manufacturing operations on the whole are good."

Corn disappear when treated with Holloway's Corn Remover without leaving a scar.

An Interesting Experiment

Professor Seeks Ray to Imitate Sunlight Ray Under Water

Experiments to find a ray which will imitate the rays of sunlight under water, and prevent the formation and stop the growth of anchor ice, which is the ice which grows at the bottom of open water, will be conducted this winter on the Upper St. Lawrence by Dr. Howard T. Barnes, well-known specialist in ice research and professor of physics at McGill University. Dr. Barnes already has devised a special lamp which gives out rays to imitate the rays of the sun, which he hopes will prove successful.

Cordage From Hemp

The manufacture of cordage from hemp is on the point of inauguration in Manitoba. The 700 acres grown by Manitoba farmers under the direction of the Manitoba Cordage Company, which averaged about three tons to the acre, is at present in the process of being dew rotted. Almost the entire crop will be manufactured into cordage in the plant at Portage la Prairie.

Men Attend Cooking School
Cooking schools recently established at Berlin for women are being over-run with men anxious to learn the culinary art. Among the number, it is reported that there are more married men than single.

SUNDAY SCHOOL LESSON

DECEMBER 5

RUTH AND NAOMI

Golden Text: They people shall be my people, and thy God my God—Ruth 1:16.

Lesson: Book of Ruth.

Devotional Reading: L-Corinthians 13:1,7.

Explanations and Comments

1. The Beginning of the Story: Verses 1-14.—A severe famine in their own land had driven a family of Bethlehem, Elimelech, his wife Naomi, and their two sons, to the land of Moab. There they settled and the sons married two daughters of Moab, Ruth and Orpha. Ten years passed, Father and sons found their graves in the alien soil. Naomi determined to return to her native home. In eastern lands farewells seldom take place in the home, and Ruth and Orpha carried out the usual custom when they accompanied Naomi a short distance on her way. When Naomi thought they had gone far enough to allow her fitting respect, she stopped to dismiss them. They wept as Naomi bade each of them a good-bye. Naomi kissed her two daughters-in-law, and turned to her people. The Greek version clings to her.

"There is a great deal of affection in the world like the affection of Orpha. It is sincere and honest, but it does not rise to the rare opportunity of the critical hour. It makes the world a better place, and more friendly place, but it does not dazzle us with the sudden shining of almost unbelievable goodness. It retains a great deal which is lost by the great adventures of the world. It loses a great deal which is lost by those who leave everything in the name of a supreme devotion. We have only kind thoughts of Orpha, but after all she missed her one opportunity to be incorporated into the life of a people who represent the highest ethical and spiritual life in the world."—(Dr. Lynn H. Hugh).

The Prince Apologized

His Name Was Wales, But He Couldn't Help It

The Prince of Wales once humorously apologized for his royal title, according to one of several new stories about him in Major F. E. Verney's book "H.R.H., a Character Study," which has just appeared.

The Prince, as a Junior midshipman on the battleship Hindustan, was found by a lieutenant in the wardroom, sacred to the ranks of sub-lieutenants and upwards.

"What's your name?" demanded the lieutenant, "and what the deuce are you doing in the wardroom?"

The Prince said to his feet—"Wales, sir," said he. "The captain brought me in here. I hope you don't mind it."

"W-what?—You cheeky young devil, get out of this before I kick." He paused and took a good look at the offender. "Dammit! I believe you are Wales."

The Prince grinned apologetically.

"Sorry, sir, I believe I am, too—but I can't help it."

Gift To Royal Church Dedicated

Beautiful Pulpit Presented by Wana-maker to Late Queen Alexandra

At Sandringham Parish Church a new pulpit has been dedicated by the Rev. A. Fuller, rector and domestic chaplain to the King. The King and Queen and Princess Mary were present.

The pulpit was presented to Queen Alexandra in celebration of her Majesty's 80th birthday by Rodman Wanamaker, an American admirer of King Edward and his Consort.

The body of the pulpit is built of oak, paneled in oxidized silver, with figures of a small relief, surrounded by tracery and very fine detail work. It is surrounded by a pierced bronze and silver gallery and hand-rail. The base of the pulpit is octagonal in plan and richly carved, and the top is a small bronze base, which in turn rests upon a plinth of polished black marble.

A silver tablet, given by the King, to the memory of Queen Alexandra, was also dedicated.

Minard's Liniment For Disasters

Purchase of Cattle From E. P. Ranch
Fifteen head of Shorthorn stock owned by the Prince of Wales, at his ranch near High River, Alberta, were purchased by Shickler and Carruthers, for the Kirkwood Farm in California, according to announcement made by Prof. W. L. Carlyle, manager of the Prince's ranch.

Notable Ceremony At Imperial Conference

Paul Kruger's Travelling Wagon Given Back to South Africa

One of the most notable ceremonies held during the visit of the Dominion Premiers to England for the Imperial Conference was the conferment of the freedom of London on Premiers J. B. M. Hertzog, J. G. Coates, and W. S. Monroe at the Guildhall, and the subsequent luncheon at Mansion House, where the Lord Mayor offered Premier Hertzog the travelling wagon used by Paul Kruger, president of the Transvaal Republic at the time of the Boer War, which Lord Kruger's own original wagon presented to Lord Hertzog, former Lord Mayor, who afterward presented it to the city.

The South African Prime Minister, in accepting the gift on behalf of the Union, said the act of friendship and good will will be deeply appreciated for the motives inspiring it. The wagon was brought to London as a proof of Britain's victory in the Boer War and it would, he said, be returned to his old home as a proof that Britain had been defeated by friendship.

Referring to the Imperial Conference, Premier Hertzog said:

"Our endeavor has been to build and not to destroy. I leave London with the feeling that the Imperial Conference will prove a lasting success and a pleasure to us all severally and jointly."

Heavy Wheat Yields

High Yields Reported From Many Parts of Alberta

Further reports to the Alberta Department of Agriculture record many heavy yields of wheat. Alvin Godkin at Majorville, reports 38 bushels per acre on 100 acres. H. Sorenson, of Leduc, had 37 bushels on 104 acres; M. Martin, of Ström, had 39 bushels on 100 acres and H. Linde, of Wynne, had 43 bushels on 30 acres. D. Morgan, at Heister, averaged 38 bushels on 200 acres. Allan Gallinger, at Clairmont, in the Grande Prairie district, made a 40 bushel average on 220 acres and many other growers had similar yields. The 100-acre farm of Dr. Wm. Whelan, at Graman, yielded an average of 60 bushels to the acre.

Keep Minard's Liniment in the House

Abundance of Soil Moisture

The Western Provinces are going into the winter with an abundance of soil moisture, which will remain in the ground until the crop takes it out next spring and summer. The latest bulletin of the General Agricultural Agent, Canadian Pacific Railway. The report adds that there is plenty of pasture for both horses and cattle in the stubble fields and livestock generally are going into winter quarters in good condition.

Visitor: "Isn't it difficult to keep your household budget straight?"
Mrs. Newbold: "My dear, it's terrible. This month I've had to put in four mistakes to make mine balance correctly."

Could Not Sleep Heart and Nerves Were So Bad

Mr. Geo. Meek, Windsor, Ont., writes:—"I suffered with heart and nerves and could not sleep at night for weeks in my head. I managed to keep on my feet, but I was not able to have dirty spills which got so bad I could not go to my work. I was not able to go to my place, for very often I would stagger on my feet and everything in front of me would turn black and fade away. While I was home sick a friend told me to take

I got four boxes and by the time I had used them the pains and noises in my head ceased and I was able to get a good night's rest. Although that was six years ago I have never been troubled with that complaint again." Price 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

PARLIAMENT IS PREPARING FOR EARLY SESSION

Ottawa.—With the opening of Parliament only a few days away the cabinet is meeting for several hours daily. The speech from the throne, which will be delivered on December 10, is in the course of preparation and it is understood that it has been the subject of cable communication between Premier King and his cabinet in Ottawa.

Announcement is expected very shortly of the awarding of the steamship contract which will complete Canada's obligations under the West Indies treaty. The tariff concessions necessary to implement the treaty were passed by Parliament at its last session but the special steamship services, which form a part of Canada's bargain, comprised the only thing which kept the treaty from being fully in effect. All the islands of the West Indies, Bermuda, British Guiana and British Honduras have ratified the treaty but have been waiting for the steamship service.

W. J. Bowser Retires

Former Premier of British Columbia Withdraws as Candidate for Party Leadership

Kamloops, B.C.—W. J. Bowser, former premier of British Columbia and for many years a dominant figure in provincial politics, definitely announced his retirement as a candidate for the party leadership at a session of the Conservative convention. Mr. Bowser's decision to retire, it was explained by his friends, in a statement given out under his authority, was reached after he had "come to the party might be avoided."

"The old chief believes he could have carried the convention by a small majority," according to the statement, "but in so doing he would cause a serious split in the party. At his age he did not wish to undertake the difficult task resulting from such a break and he felt in any case that for the good of the party, he should retire."

Condemns American Films

India Protest Against Pictures of "High Speed Civilization"

London.—Apprehension that the Imperial Conference does not realize the gravity of the situation arising from America's dominance of the world film market is expressed in reports from India.

"No language is too strong," says the Times of India in an editorial, "to condemn the films with which America is plaguing India."

Hindoo members of the Legislature have demanded that the government prevent a continuance of "this evil stream of misrepresentation," and have been told that it was not possible. The newspaper concludes that no remedy is possible unless the authorities are prepared to take ruthless action.

Obtain Aviators' Certificates

Two Women Members of London Flying Club Pass Tests

London.—Two more women have obtained aviators' certificates, at the Stag Lane Aerodrome Club. They are Lady Bailey, wife of the South African millionaire, Sir Abe Bailey, and Miss Nora O'Brien. Both are members of the London Flying Club, and passed their qualifying tests in a two-seater Moth. The tests included landing and taking off, cutting a figure of eight in the air, according to a specified height and landing with the engine shut off.

Saskatchewan Sells Bonds

Regina.—Sale of 30-year 4½ per cent Saskatchewan bonds at 93 has been announced by Premier Gardiner. With the exception of one sale in July, 1925 it is the best price received in several years. The Dominion Securities Corporation, Toronto, was the purchaser.

Contrary to general opinion, American Indians are no longer a vanishing race. Their numbers in the United States are increasing.

W. N. U. 1607

To Adopt New Methods

New Zealand Will be the First to Adopt New Plan of Empire Communication

Edinburgh.—The most distant of the Dominions, New Zealand, may be the first to adopt the new methods of communication which were indicated in the report of the Imperial conference. The premier's committee on inter-imperial relations—a system of personal contact, both in London and in the Dominion capitals, to supplement the present system of inter-communication by representing in the supply of information on affairs requiring joint consideration.

Premier J. G. Coates, speaking here today, announced the intention of the New Zealand Government to consider methods of putting into early effect the suggestions in the report as to the establishment of personal contact between the Dominions and Great Britain and the Dominions between themselves.

The plan indicated in the report of the premier's committee is the appointment of special representatives who will keep the governments to which they are attached adequately informed of the policies of their home governments.

Mennonites Leave Canada

Objecting to School Laws, a Party of Mennonites Leaves for South America

Winnipeg.—Settlement ties of 50 years were broken recently when 220 Mennonites from Manitoba settlements began a long journey to Paraguay, South America.

Those leaving the settlements are members of a group which has repeatedly expressed dissatisfaction with the educational laws of the province, which, they allege, interfere with the Mennonite religious beliefs.

"The Mennonites will proceed to New York and sail from there for their new home under the auspices of a New York land company."

The exodus may be the forerunner of a greater movement, Mennonite leaders state. Many others in the settlements in Manitoba will join the group in Paraguay if conditions there are found satisfactory.

Germany Ready To Help

Now Up to France to Show Appreciation, Says Chancellor Wirth

Berlin.—Former Chancellor Wirth declared in the Reichstag that Germany's entry into the League of Nations and German readiness to promote stabilization of the French currency were national sacrifices. His remark that it behooved the French to appreciate this fact and that it was the duty of the German parliament to declare before the whole world that "these sacrifices demand French concessions" was greeted with thunderous applause.

Dr. Wirth resumed: "Now France has the floor, and must show if she intends to serve European solidarity or the rather narrow minded egoism of a single nation."

U.S. Trade Isolation

Washington.—Trade isolation is a dubious prescription for the remedy of the ill United States farmers in the opinion of the United States Chamber of Commerce foreign commerce department. Surveying the agricultural export prices over a 15-year period, 1910-1914, in a statement here, the department also assailed the theory that the farmer is at the mercy of the foreign buyer and that prices are fixed at Liverpool.

May Withdraw Allied Control

Paris.—Early withdrawal of inter-allied control of Germany's military affairs, to be succeeded by periodic supervision by the League of Nations, is now looked upon as certain in French official circles. The French and German governments it was said by a high authority, have virtually agreed as to the means whereby this change may be made.

Waterways Report

Ottawa.—Canada's attitude on the perplexing problems of deep water development of the Great Lakes-St. Lawrence Waterways, indicated by the published report of the joint board of Canadian and American engineers, probably will receive the consideration of the Dominion Government as soon as the report is fully complete.

INITIAL PAYMENT OF FORTY CENTS FOR POOL OATS

Regina.—Initial payment on all grades of pool oats will immediately be increased by six cents per bushel according to a decision arrived at by the central board of the Canadian Wheat Pool. This will raise the initial price basis No. 2 C.W. oats in store at Fort William to 40 cents per bushel.

The change of price will take effect November 29 at all country elevators. Pool members who have already delivered and received their initial payment on the 21 cents basis, will receive the additional payment immediately on the surrender of their growers' certificates. All oat certificates should therefore be turned in at the earliest possible moment.

This decision has been brought about by the altered situation on the market for oats. At the time the initial payment was set, conditions did not appear to warrant any change from the initial payment set last year. Market conditions in respect to the domestic demand for seed and feed oats have since developed, that have led the board to the conclusion that an increase on the initial payment may now be made with safety and advantage to coarse grain pool members.

Australia Likely To Establish Wheat Pool

Would Have Less Difficulty Than Canada Says G. W. Robertson

Winnipeg.—Australia is increasing its wheat production at a great rate and is definitely moving toward the establishment of a wheat pool system such as in operation in Canada, according to George W. Robertson, of Regina, secretary of the Saskatchewan Wheat Pool. Mr. Robertson, along with other officials of the Canadian pools, recently returned from a visit to the Antipodes and in an interview here reviewed the present system of marketing in Australia.

Australia at the present time has voluntary pools and plans now are under way to institute the contract system and possibly a central selling agency along similar lines to the Canadian pools.

In organizing contract pools, Mr. Robertson believes Australia would have less difficulty than that experienced in Canada, owing to the non-existence of a grain exchange.

Electricified Eggs Latest Idea

Liverpool.—Electricified eggs, guaranteed to keep for years and designed to add in keeping down the cost of living, have been placed on the British market. This invention, by which eggs are sterilized by means of an electrically heated oil bath, makes it possible, it is claimed, to keep eggs almost indefinitely.

New Unit for C.P.R. Coastal Fleet

To cope with the increasing Pacific coast traffic between Vancouver and Alaska, the Canadian Pacific has purchased the S.S. Emperor of Port McNeill, which will be renamed the S.S. Nootka and placed in the Company's coastal service. This sturdy vessel, with deadweight carrying capacity of 2,400 tons, sailed recently from Montreal for Newfoundland where she was scheduled to load with steel and proceed to Vancouver via the Panama canal.

Settle Pacific Cable Dispute

Premiere's Committee of Imperial Conference Has Revised Agreement

Ottawa.—Power of the Dominion Government are increased and powers of the British Government are diminished as regards control of the Pacific Cable under the new agreement made by the Premier's committee of the Imperial Conference in London. Two instead of three members will represent the British Government on the board and the chairman will be appointed by agreement between the partner governments instead of by the British Government solely.

The revision of the agreement marks the end of a dispute which has been going on for years regarding the management of the Pacific Cable between Canada and Australia. The various Dominion Governments interested are represented on the board and will share the profits on operation of the cable. Coincident with the revision of the agreement a new cable between the west coast of Vancouver Island and New Zealand and Australia has been opened, doubling the facilities.

Leonid Krassin Dead

Soviet Diplomat Was Victim of Pernicious Anemia

London.—Leonid Krassin, Soviet chargé d'affaires in London, died here Nov. 21.

Friends of Krassin who saw him recently were shocked at his death. He appeared in good spirits and seemed to be shaking off the pernicious anemia from which he had long suffered. At the Foreign Office in Downing street, tribute was paid to M. Krassin as a sensible and responsible diplomat who, if he had not died, undoubtedly would have brought about improved relations between Russia and Great Britain. It was said that Krassin's greatest value to Moscow was that he commanded the respect and confidence of the British financial world.

Franco-German Commission

Suggestion of Premier King for Boundary Commission Is Well Received

London.—The Evening News says an indirect but important outcome of the Imperial conference is the proposal to constitute a Franco-German boundary commission, modelled on American-Canadian commissions, which would settle all questions relating to the Franco-German frontier. It is understood the suggestion originated with Premier Mackenzie King, who submitted it to Lord D'Albion, British ambassador at Berlin, who was much impressed with it and readily undertook to give it his practical support.

Appointed Translator at Geneva

Ottawa.—J. E. A. Johnstone, Vancouver, has been appointed translator in the International Labor Office of the League of Nations at Geneva.

WILL APPROACH COMPANIES IN WAGE DISPUTE

Montreal.—"No reason for extreme exists," declared W. G. Lee, president of the Brotherhood of Railroad Trainmen, when questioned in regard to the railway situation in Canada caused by a ballot of conductors, trainmen and yardmen which refused a recent award of a conciliation board which refused them a wage increase. Some 800 representatives of these employees met in session here.

Mr. Lee made his statement when he was questioned tonight as to the prospects of a strike developing. "Matters with us are conducted in a business-like way," he said, and explained that following the termination of the conference, the matter would then be one for approach to the railway companies.

Light was thrown by a dispatch from Montreal on the attitude which would be taken by the locomotive engineers should a strike of conductors and trainmen result. George A. Stone, general chairman of the Brotherhood of Locomotive Engineers, in an interview in the New Brunswick city, said the brotherhood was bound by a contract with the Canadian railways, and the executive officers of that union had announced that the engineers at least would observe the contract. Nevertheless, Mr. Stone said, the engineers must have regard for the safety of passengers and other employees and this would doubtless be considered should there be a strike of the other branches.

Although no official statement was issued from the conference it is understood the results of the recent referendum have been forwarded to the federal department of Labor.

Lord Byng's Farewell To Canadian Scouts

Read at General Council Meeting by Viscount Willington

Ottawa.—"Goodbye; good luck; good scouting." This was Lord Byng's farewell to the Boy Scouts of Canada. It was read at the first general council of the Boy Scouts Association under Lord Byng's successor, Viscount Willington, here. His Excellency presided for the first time as chairman and briefly expressed his pleasure in accepting the office of chief scout for the Dominion.

Satisfactory progress was reported to the chief scout. Membership in the Boy Scouts in Canada now exceeds 40,000. A congratulatory report was read from Sir Alfred Pichford, of the Imperial Boy Scout Association, who visited Canada last spring.

Greenland Receives First Radio Concert

Acknowledges Music and Messages Broadcast From Pittsburgh

Montreal.—Receipt of the first radio concert in Greenland, is acknowledged in a wireless message which has reached George A. Wendt, agent here of the company which made the broadcast from Pittsburgh. The message was sent by residents of Godhavn, Greenland, to Iceland and from there to Copenhagen. It thanked Mr. Wendt and Messrs. Finlay, Lloyd Craig and Mackenzie in the Government offices for organizing the broadcast, which was of music and messages from relatives. The broadcast was picked up on a short wave set.

Not Planning League

Moscow.—On the eve of his departure for Germany, George Tchitcherin, the Soviet Foreign Minister, told the newspapermen that his receipt meeting with Twelfth Russian, Beria, Odessa was not concerned with the creation of Pan-Atlantic of any other league, and no agreement directed against other powers was concluded by them.

Disastrous Floods in France Nice, France.—Twenty persons were killed in the town of Roquebilliere, Department of the Alpes Maritimes when more than a score of houses collapsed, their foundations having been undermined by a torrent from the Vesuble River.

GOOD NEWS "Without money and without price"

"THE KINGDOM OF HEAVEN AT HAND"

free THOUSANDS of Churches are without ministers not withstanding the great need of preaching the Gospel free

"There is a harvest in the land... for the Word of God is sown there"

The people need the truth as never before. Will you do your part? The International Bible Students Association will supply Ministers of the Gospel free of charge on application.

Conditions: Open the church building, admit all free, take no collections. ADDRESS: G. A. Ware, 5 Conndell Block, Edmonton or I.B.S.A., 270 Dundas St. W., Toronto, Ont.

HAVE YOU RENEWED
 YOUR SUBSCRIPTION?

Incredible Value.

Reports from all provinces indicate that the Family Herald and Weekly Star at the price of \$1 a year, is sweeping the country.

At the price of \$1 a year, this big weekly journal is the marvel of the newspaper world. Notwithstanding the reduction in price (from \$2 to \$1) every big feature of this great newspaper has been faithfully maintained, and the publishers are ever watchful for opportunities to make improvements.

When one takes into consideration the huge volume, wide variety and high quality of the reading matter in every issue of the Family Herald, the question uppermost in the reader's mind is, "how can it be produced at the price?" It is a combination of a complete farm journal, family magazine and weekly newspaper at a cost of less than TWO CENTS weekly.

Winter is rapidly approaching. For this coming winter's reading there is no better combination than your own local paper and the Family Herald and Weekly Star. Subscriptions may be left at The Sun Office.

WHY SUFFER WITH HEADACHES?

Why not have your eyes attended to now, before it is too late?

My prices are fully 25 p. c. cheaper than elsewhere, as I buy vast quantities direct from the factories.

 PHONE, :: 4944.

W. E. Kidder of Kalamazoo, Mich. arrived in Montreal over Canadian Pacific Railway lines, recently with the best "fish" story of the year. It was a pretty good story, and we had to believe him, especially when he showed us a forty-pound salmon packed away in ice in the observation car.

Now, Mr. Kidder is a pretty good fisherman, but he says that the experience he had while fishing in Cains River, New Brunswick is a'olutely unique, and that as far as he knows he was successful in hooking what is probably a record salmon with a trout rod and fly.

"This fish is unquestionably the largest hook bill, I have ever seen," said Mr. Kidder, "and the same

A Record Fish and Game

 3 Proof of the "fish story."

opinion was expressed by game wardens who viewed the fish in the live box. But the really great point was the terrific fight that this fish put up. This was so spectacular and so fast and furious, accompanied by rush after rush of 150 to 200 feet, that we had no time to take a picture of it.

"My canoe man and myself were busy every second of the time from twenty minutes past four until after dark. In fact up to the last few minutes of the fight I stood with one foot in the bow of the canoe constantly, when I was not in the canoe and chasing the fish back and forth across the stream.

"This fish was forty-five and three-fourths inches long measured in a straight line. It measured around the contour of the body it would probably show two or three inches longer than this. These measurements were

taken after he had been fighting the wires of the live box for five or six days, in which he undoubtedly lost a great deal of weight. Perhaps if he had been measured when first taken from the water he would have been at least two inches more.

However, no matter how you look at it, he was big enough to suit me, and the act that it was a "hook bill" and "leaping fish" instead of a female or "sucker" gave me that much more satisfaction. Then, too, it was taken with a No. 12 fly, which is very much smaller than is commonly used for six inch trout. The rod weighed only four and seven-eighths ounces, and the ordinary trout leader, with a three pound breaking strength was not much heavier than is commonly used for a small trout fly."

CHAPTER XX.—Continued

She smiled at them both, "I couldn't say that so easily," she explained brightly, "if it wasn't that I'd read, some place, that those three things were particularly wicked, I recognized them immediately as the ghosts that were always haunting me. John and Mrs. Adams misunderstood me. If I went out and didn't see home until four in the morning, they thought there couldn't be any place decent for a girl to be after half-past ten. If I took a swallow out from their flasks the boys distrusted me when I drew a line they mustn't cross, and said I was fooling or that I wouldn't take the swallow. And a lot of men and women who didn't have the good time when they were young that I tried to have were envious of me because I happened to be young in these days instead of theirs, so they said I must be bad like all other modern girls. That's the way you count them up, you know—Misunderstanding, Distrust and Envy. I've always had the three of them in my mind, but I haven't had people before, to whom I could talk about the things I really feel. I've just known boys, and their main line of talk has been, 'Give me a kiss.'"

"And," Brandon urged, quickly, "your response to that 'line,' as you say, has been?"

Joanna considered a moment. Then she said, as if she were speaking with

STRATFORD WOMAN

Restored to Health by Lydia E. Pinkham's Vegetable Compound

Stratford, Ontario.—"After my first baby was born I started to work on the tenth day and did a big washing on the twelfth day. Being a young (I was married at 19) I did not know what was the matter, so let it go until I was all run down, weak and nervous, and had a bad displacement. For nearly two years I could not sleep and would always wake up of having 'hot a head-ache, but a brain-ache.' My mother is taking Lydia E. Pinkham's Vegetable Compound during the Change of Life and she recommended it to me. After taking two bottles I began to get a little sleep and to feel better and I have never left off since then, except for about three months. I can safely say I have taken thirty bottles since my second baby was born. I think it makes child-bearing easier. I had terrible pains with my first three children and very few with my fourth, as I was so much stronger. I am now able to do my work alone, but I am still taking the Vegetable Compound as I am nursing baby."—Mrs. OMER PAUL, 47 Cherry Street, Stratford, Ontario.

If you are suffering from any weakness which causes such symptoms as pains in the side and back and nervous feelings, give Lydia E. Pinkham's Vegetable Compound a trial now.

A Blow At Tradition

Introducing Modernity in Turkey With a Bang

Imperial tradition again has received a rude blow from modern Turkey.

For one night the sublime port, the famous edition from which Grand Vistiers once hurled their decrees, was transformed into a dancing hall.

The Governor of Constantinople, Suleiman Sami Bey, chose this historic relic of the old regime as the place in which to give a ball celebrating the third anniversary of the new republican regime.

One of the most noteworthy features of this occasion was the fact that Madame Sami Bey, unveiled and in full evening dress, received in line with her husband, the Governor, and other officials.

This was the first time that a Turkish woman had even been in the reception line of an official affair.

LARGE PIMPLES ITCHED BADLY

On Face, Shoulders and Arms, Cuticura Heals.

"My trouble began with pimples breaking out on my face, shoulders and arms. They were large, hard and red, and itched, and caused great discomfort. My clothing irritated the breaking out on my shoulders. The trouble lasted for some time."

"I began using Cuticura Soap and Ointment and they afforded relief in a short time. I continued the treatment and after using four cakes of Soap and four boxes of Ointment I was healed." (Signed) Miss Grace M. Ward, Thorold, Ontario, Vt., Aug. 12, 1925.

Use Cuticura to heal skin troubles.

ton's library, just then, she would have seen him, almost hidden among the darkening shadows of the great room she had just left, standing motionless, his eyes lifted in silent communion with the girl of yesterday in the gold frame.

CHAPTER XXI—The Golden Girl

A wilful beam of mid-morning sun found a crevice between the rose hued drapes that were intended to keep it from whatever secrets were within their window, and made straight for the face that was almost lost in a mound of pillows—pillows of exquisite lace and silk from golden looms.

The vagrant beam glared in its discovery, in the shimmer it aroused in gold brown hair, in the velvet white and startlingly youthful contours of the face so invitingly nestled in its caress.

Brandon, who was intended to keep it from whatever secrets were within their window, and made straight for the face that was almost lost in a mound of pillows—pillows of exquisite lace and silk from golden looms.

The vagrant beam glared in its discovery, in the shimmer it aroused in gold brown hair, in the velvet white and startlingly youthful contours of the face so invitingly nestled in its caress.

Brandon, who was intended to keep it from whatever secrets were within their window, and made straight for the face that was almost lost in a mound of pillows—pillows of exquisite lace and silk from golden looms.

A voice that was drowsy but not without its note of petulance, asked: "What time is it?"

Out of the unnatural darkness of the room made by the drawn curtains, another voice, clearly that of a patient servant, answered: "It is quite an o'clock, Mademoiselle. Shall I open the curtains, Mademoiselle?"

Again the sleep voice from the depths of the huge, soft bed: "If you please, Martha."

Martha, very neat and prim in gray morning gowns from the edge of the chaise longue where she had perched silently through two hours waiting for the beautiful form in the bed to stir, and pulled the curtain ropes. Like a yellow flood the transfiguring Riverina sun burst through the pest of broad windows that curved out from her room in a semi circle, all shut off together by the heavy, shell pink drapes. Bewildering, exotic odors of orange, mimosa and daisies filled the room with the sunshine, each separate fragrance seeming to bring up from the calm Mediterranean down below some ineffable perfume of March morning romance.

When Martha turned from the window the voice from the bed, not sleep now, but alert, rippling: "I ought to be dreadfully cross with you, you know, for letting me sleep so late," it said in mock severity; "but I suppose you will say that I looked so comfortable you dared to disturb me."

Martha, American from head to toe despite her "mademoiselle" and her French ribbons and ruffles, looked

down on the girl in the big bed, gleaming, glittering bed of golds and silks and blues mounted on a dais under a gorgeous canopy of gold lace against pink tulle. Martha seemed to hover, for a moment, at the edge of a scolding, but dutifully remembered that, after all, the girl in the bed, whose eyes were twinkling up at her, was "Mademoiselle" and she was Martha. So all she said was:

"Mademoiselle did not return from Prince Michael's until three o'clock this morning."

"That's so!" agreed the voice, emphatically, as if suddenly reminded. "There was an affair last night, wasn't there? And something happened. I know something happened, because something always does when Michael feels the urge. And Michael was urged, last night, Martha. Very urged. While you run my bath I will try to remember what about. Maybe it was me. If so, I will tell you about it when I appear."

While Martha hustled herself with the taps over the pink marble pool in a gleaming shower-room, the girl in the bed sat up, drew up her knees until her elbows could rest on them and her chin on her wrists. Her brow wrinkled a little as if trying to remember. The warm sunshine wrapped the cuddled girl in yellow splendor. Thin shadow lines from the diamond patterned bars of the clematis trellis outside the window rumped through the filmy, diaphanous chiffon of the girl's palms and twisted about her like mischievous fairy arms. Suddenly the puckered brow cleared and a laugh that was as vibrant as music rippled at her lips.

Martha turned off her taps, satisfied at last that the water was just warm enough—her mistress ever refused to have a cold shower—and went up to the bed, a fawning, yellow robe of transparency silk over arm, my satin boudoir mules in her hand. While she knelt at the dais to slip the mules on bare feet, and then stood to receive the slim form in the fold of the robe, the voice promised:

"If you haven't made the water 100° cold, Martha, I'll tell you what it was that happened last night as soon as I'm in it. If it's cold you shan't know a thing."

When the robe had fallen and the sheets had been tossed, rolled into a ball, at Martha's head, and the splashing in the marble pool was begun, Martha was mentally informed: (To Be Continued)

Little Helps For This Week

It is more blessed to give than to receive.—Acts x. 35.

The heart grows rich in giving. All its wealth is living rain. Scatter, all will gold the plain. Is thy burden hard and heavy? Do thy steps drop weary? Help to bear thy brother's burden.—God will bear both it and thee.

Every good act is charity. Putting a wanderer in the right way is charity. Removing sickness and thorns from the road is charity. Smiling in your brother's face is charity.

—Mahomet.

To him who gives but a drop of water to the poor unselfishly, it will be a living fountain in paradise. Therefore seek to mingle with the poor, the weak, the broken-hearted that thou beest not too great a stranger to some of the angels who will greet thee in heaven.

Community Welfare

Lord and Lady Willingdon Become Patrons of Canadian Social Hygiene Council

Community welfare and its attendant social problems are matters in which Canada's new Governor-General and his family have always been deeply interested. Last year, His Excellency, Lord Willingdon, was the active head of the British Social Hygiene Council, resigning only when his appointment to Rideau Hall made it necessary for him to sever his connections with the movement in the Old Land.

One of the first things he did, however, after his arrival in Ottawa was to enquire about the social hygiene work being carried on in the Dominion and it has now been announced that their excellencies will become patrons of the Canadian Social Hygiene Council.

Minnard's Liniment for Sprains and Bruises.

Treat Colds Externally

For sore throat, bronchitis or deep chest cold, rub Vicks VapoRub briskly over throat and chest and cover with warm flannel.

Vicks acts in two ways—both direct: absorbed like a liniment and inhaled as a vapor. A quick relief for the cold troubles of all the family.

VICKS VAPORUB

Over 21 Million Jars Used Yearly

Sixty Millionaires in Party

A party of 410 tourists, including sixty millionaires, has sailed from Southampton on the Canadian Pacific liner Empress of Scotland on a five-month tour of the world. The minimum cost of accommodation is about \$15 a day, while private suites cost \$10,000. The liner will cover 35,907 miles, visiting thirty ports in twenty-two countries.

HOW TO RELIEVE CHILDREN'S COLDS

Avoid Serious Results by Using Baby's Own Tablets

When a child shows the first symptoms of a cold, such as sneezing, redness of the eyes, clogged or running nose, prompt measures for relief may avert serious results. Mothers should always have on hand some simple, safe and effective remedy for immediate use.

Baby's Own Tablets act quickly, contain no opiates or narcotics, are tasteless to the baby. Mrs. Joseph Cadieux, Holyoke, Mass., says: "I have used Baby's Own Tablets for my children since they were very young. I consider them a very satisfactory medicine. When my little boy had a cold I gave him the Tablets at night and he was well next day. I give them to the children for constipation and they always do good. I think Baby's Own Tablets are much easier to give a child than liquid medicine. I recommend the Tablets to all mothers who have small children and believe they should always be kept on hand."

Baby's Own Tablets are sold by all medicine dealers or will be sent by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Cattle Free From Tuberculosis

Saskatchewan cattle rate high in immunity from tuberculosis. Out of 21,284 cattle tested only 176 reacted as positive in the new restricted area for the eradication of the disease. With 32 per cent of the cattle reacting positively, Saskatchewan's record is second only to that of Prince Edward Island.

Stony Plain and District.

Stony Plain town council meets tonight.

Inga Councillors meet in Stony Plain tomorrow.

Quite a number of young people enjoyed themselves on the evenings of Saturday and Sunday skating at Flashlight Park, north of town.

Young Phil Fuhr is recovering, at the home of his parents in Blueberry, from an attack of pneumonia contracted in Edmonton.

Mr Waulbaum made a large shipment of turkeys yesterday to Woodland Dairy Co., Edmonton.

August Meredith made a shipment of cattle to Edmonton on Tuesday. This gentleman is arranging for a shipment of fine cattle to Toronto for the Christmas trade.

Mr "Fred" Duncay, well known to radio fans as being a feature in the Doo-Dads broadcast from CJCA, is arranging to give an entertainment in Stony in the near future.

Some residents of Glory Hills and Pickleville are incensed at the action of Insp. Fidler of the I. R. Dept., in giving their places a thorough inspection, last week, for contraband.

The Councillors of Spruce Grove M.D. meet at the Grove Monday next, Dec. 6.

The wedding took place on Tuesday last at the Union Church, Stony Plain, of Miss Marjorie Olive Anderson to Mr Thomas Henry Weston of Edmonton. The ceremony was performed by Rev W. J. Whelan, pastor of the church.

At the organisation meeting of the Wheat Pool Local at Holborn, W. M. Washburn was elected Pres., R. Larson Sec.; and C. Pitzler & H. J. Woodley directors. Another meeting will be held shortly, to be addressed by one of the Wheat Pool staff, from Calgary.

Tomorrow night a dance will be given at Holborn hall by the U. F. local. Martin's orchestra will provide the music, and a big attendance is expected.

At the whist drive at Holborn, Friday, the prize winners were: Mrs. L. M. Larson & R. Meisner, 1st; Miss Lulu Burger & G. Herbert, 2nd; H. Hardapple won the prize quilt with a guess of 750 beans.

Wohlsein! Eat apples! Get 'em at Hardwick's.

M. M. Meeklenburg, the well-known optical specialist, will be at the Royal Hotel, Stony Plain, on Monday Dec. 27th; and at Duffield Tuesday Dec. 28. See him and see good.

People are advised to buy their supply of winter apples now, while prices are moderate. A good assortment is now on hand at Mr Charles Ries' next to Zilliox shop.

ESTRAY, 1 bay mare, 1150, white stripe on face, 9 years, marks on right shoulder; 1 bay mare, white stripe on face; 1 bay mare, about 1100, white spots on feet. Inquire Sun Office.

ESTRAY, came to my place NE 32 51 1w6, about Nov 15, one steer, about 16 months old, red with white markings, no visible brand. Peter M. Eviu, phone 203.

Calendar.

December—

2—Meeting of the Stony Plain Councillors.

3—U. F. A. dance, Holborn Hall.

3—Inga Councillors meet.

4—U. F. A. Local meet.

11—Secretary Pidgeon at Stony Plain.

12—Walther League's Social evening.

29—Business meeting, Walther League.

After the Big Game

The fall of snow last week encouraged the hunters to take another chance at the big game, several parties going West Thursday and Friday.

Geo Schadeck took a party out on the 26th. The party included Emil Ulmer, Adam Mohr and Gus Gitzel, and left by team and sleigh on their 80-mile drive to the hunting grounds.

Mike Ducholke took a party out on Friday, in his sedan Mike had better luck than on a former occasion.

Messrs M & Fred Badke have gone west on a hunting and trapping trip.

Levi Stevens took a party out over the week-end, on his annual hunt.

Big game license holders will note they are required to return their license to the Game Commissioner, with the certificate on the back filled in. Particulars at Sun Office.

Seed Oats Shortage

Realizing that a serious shortage of seed oats exists in many districts in the Province, efforts to meet the situation have been made jointly by the Provincial and Dominion departments of agriculture. The efforts have been directed towards conserving the supply of seed oats obtainable in the province, and towards bringing farmers to a proper realization of the situation. A survey of the province shows that while the shortage of seed oats will be serious in some districts, other districts will have a surplus. The Dept. of Agriculture urges all farmers who have oats which will make seed to secure an immediate government test, so they will settle the question whether they require seed oats. Farmers who need seed oats should place their orders at once with their local elevators.

Here and There

Fifteen head of shorthorn stock owned by the Prince of Wales at his ranch near High River, Alberta, were purchased for the Kingwood Farm in California, according to an announcement made by Prof. W. L. Carlyle, manager of the Prince's ranch.

Canada's largest muskrat ranch is now being established at Swan Lake, about 40 miles west of Queneau in central British Columbia. There are about 4,000 muskrats on the farm now and it is estimated that the ranch will eventually have an annual output of \$9,000 pelts.

The S.S. Emperor of Port McNicol, purchased by the Canadian Pacific Railway Company and renamed the S.S. Nootka, sailed from Montreal recently for Newfoundland and will thence proceed to Vancouver via the Panama Canal to join the Canadian Pacific coastal fleet. The Nootka will be operated on a cargo service between Vancouver and Skagway, Alaska.

Edmonton.—The first plant in Canada, outside of British Columbia, for the freezing of fish, poultry and eggs under the Ottawa process, will be operating in this city by June 1st, according to J. Johnson, managing director of the Johnson Fisheries, Limited. His firm paid \$10,000 for the rights of the territory. The initial capacity of the plant will be fifteen tons a day.

Victoria.—The new drydock just completed at Esquimalt, Victoria, is the second largest in the world and only 29 feet shorter than the Commonwealth dock at Boston. This giant dock, hewn out of solid rock, cost \$6,000,000 and measures 1,150 feet long, 149 feet wide at the top and 135 at the bottom. Its depth is 49 feet 5 inches with 40 feet of water in the sills at high water. The dock will take the largest ship afloat.

The shipment of Canadian apples to England and to many centres on the Continent is expected to be heavier this year than ever experienced, according to J. R. Martin, manager of the foreign freight department of the Canadian Pacific Express Company. About three years ago the practice of sending Canadian apples to the Old Country as Christmas gifts became popular, and the shipment each year have correspondingly increased.

Facilities at the Eastern Public Cattle Market in Montreal have been augmented by the addition of a new export cattle building, which was opened recently. This new building is considered one of the finest of its kind on the continent and has accommodation for 50 carloads of cattle. By the arrangements of 25 cattle chutes on each side of the main alley-way, a train of 25 cars can be unloaded at each side of the building.

According to the western farmer a feature of the present year's harvest was the use of "combines"—the combine reaper and thresher now being made by several implement manufacturers in this country. One farmer using this outfit claims to have covered from 35 to 50 acres per day at a cost of 45 cents an acre. He says that they save the cost of twine and about nine-tenths of the labor of harvesting. The implements cost about \$2,000.

A preliminary conference, the results of which may be of the utmost importance to the Maritime Provinces, was held in the Board Room of the Canadian Pacific Railway at only at the invitation of E. W. Beatty, chairman and president of Windsor street station here re the company. It was attended by Hon. E. N. Rhodes, Premier of Nova Scotia; Hon. J. B. M. Baxter, Premier of New Brunswick; Hon. J. D. Stewart, Premier of Prince Edward Island; E. W. Beatty, chairman and president of the Canadian Pacific Railway; A. V. Sale, Governor of the Hudson Bay Company; Colonel Stanley of the Hudson Bay Overseas Settlement; G. W. Allan, director of the Hudson Bay Company; and Dr. W. J. Black, representing the Canadian National Railway.
